6-Month Opportunity

Why Students Choose This Program

Because building backends is building the backbone of every great product.

- 100% Practical — Build real APIs & services from Day 1, no boring theory
- MNC Expert Sessions — Learn from senior engineers at top companies
- Guaranteed Interviews — 12 slots with hiring tech companies
- Internship Pathway — Top performers get 6-month paid internship
- Portfolio Ready — Graduate with 3+ deployed backend projects on GitHub

PROGRAM BY THE NUMBERS

Everything You Get in 12 Weeks

We don't just teach Node.js. We build backend engineers.

FULL CURRICULUM

12-Week Learning Roadmap

PHASE 1: JavaScript & Node.js Foundations

Weeks 1-4

- Wk 1** JavaScript ES6+ — Variables, Functions, Async/Await, Promises
- Wk 2** Node.js Setup — Runtime, NPM, Modules, File System, Event Loop
- Wk 3** Express.js — Routing, Middleware, Request/Response Lifecycle
- Wk 4** REST API Design — CRUD Operations, Status Codes, Validation

PHASE 2: Databases & Authentication

Weeks 5-8

- Wk 5** MongoDB & Mongoose — Schemas, Models, Queries, Aggregation
- Wk 6** PostgreSQL & SQL — Joins, Indexes, Transactions, Prisma ORM
- Wk 7** Authentication — JWT, OAuth 2.0, bcrypt, Session Management
- Wk 8** File Upload & Email — Multer, Cloudinary, Nodemailer, Queues

PHASE 3: Production-Ready Backend Systems

Weeks 9-12

- Wk 9** Advanced Patterns — Caching (Redis), Rate Limiting, Pagination
- Wk 10** Testing & Docs — Jest, Supertest, Swagger/OpenAPI Documentation
- Wk 11** Docker & CI/CD — Containerization, GitHub Actions, Env Config
- Wk 12** Cloud Deploy (AWS/Render) — Final Project, Code Review, Demo

Every week includes live coding sessions, assignments & mentor feedback

"Talk is cheap. Show me the code." — Linus Torvalds

EXPERT SEMINARS

4 Exclusive MNC Expert Sessions

- 1 Backend Architecture at Scale**
How top companies design their servers Week 3
- 2 Career in Backend Engineering**
Salaries, hiring & skill expectations Week 6
- 3 Database Design & Optimization**
Performance tuning at production scale Week 9
- 4 Junior to Senior Backend Path**
Career roadmap from industry veterans Week 12

GUARANTEED INTERVIEWS

12 Direct Company Interviews

- 12 interview slots with actively hiring tech companies
- Mock interview prep sessions before real rounds
- Resume & portfolio review by professionals
- Direct feedback from hiring managers
- Companies: funded startups to established firms

CERTIFICATION & INTERNSHIP

CERTIFICATE OF COMPLETION

- Backend Developer (Node.js)
- Issued by Skill Shiksha
- Verifiable & Industry-Recognized
- Add to LinkedIn & resume

6-MONTH INTERNSHIP

- Intern at Skill Shiksha
- Work on live backend projects
- Mentored by senior developers
- Stipend-based opportunity
- Letter of recommendation

"Built a full REST API and got hired in 3 weeks."
— Aditya M.
"The Docker & AWS modules were game-changers for me."
— Priya S.
"From zero backend knowledge to deploying production APIs."
— Rohit T.

FREQUENTLY ASKED QUESTIONS

Do I need prior coding experience?

Basic computer knowledge is enough. Week 1 covers JavaScript from scratch.

What if I miss a class?

All sessions are recorded. Lifetime access to recordings & materials.

Is the internship guaranteed?

Top performers get a 6-month paid internship at Skill Shiksha.

What's the class schedule?

Weekend & weekday evening batches. 2-3 hours per session.
